

## Infection Prevention and Control

---

Are you looking to enhance your knowledge and skills in Infection Prevention and Control? Join our highly informative course that will equip you with the necessary tools to safeguard against infections. Learn how to engage your team in preventing healthcare-associated infections and reducing antimicrobial resistance, while discovering practical applications of infection control principles.

Our experienced trainers will help you decode workplace safety legislation like COSHH and RIDDOR, and navigate regulations with confidence. You will also develop risk assessment skills and learn to manage outbreaks effectively.
